

Project Profile

Custom Home Hudsonville, MI

R-Control Systems

This featured home earned an impressive Five Star Energy Rating, satisfying the Energy Star for Homes criteria of the U.S. Environmental Protection Agency. Energy Star labeled homes use at least 30% less energy for heating, cooling, and water heating than comparable homes built to the Model Energy Code.

This home has over 3,500 SF of living space with the highest monthly heating bill of only \$54. The basement of the house was constructed using Insulated Concrete Forms with R-Control Perform Guard Expanded Polystyrene. The above grade walls and roof of the house were built with R-Control SIPs.

"Our goal is to make the experience of building a new home, an enjoyable one."
