

## Project Profile

## Custom Home

### R-Control Systems

R-Control SIPs were chosen in combination with laminated beams to provide a dramatic vaulted ceiling in the main living area.

### Comfort

The combination of custom windows and R-Control SIPs provide a dramatic view of the adjacent lake, while not sacrificing energy efficiency.

<b>Quick Facts</b>
<b>2500 sq. ft.</b>
<b>Builder: R.L. Merlie Co.</b>
<b>R-Control SIP shell</b>
<b>Laminated Beam supports</b>
